## Mission Statement

We recognize that human beings are now at a critical juncture in relation to our planet, and that viable alternatives must be created to lead us into a sustainable future.

Clean Trend was created to manufacture and market high quality, unique and natural products of usefulness and value; and to be an example of how corporations can be a tool for positive social change.

We emphasize the wholeness and integration of the company departments through communication, participation in the growth process, and acceptance of responsibility among co-workers.

We pledge to conduct our business in an environmentally aware manner emphasizing reuse and recycling, the use of natural base ingredients, and the application of appropriate technology.

# **ONE BY ONE WE CAN CHANGE THE WORLD**

## **Our SDSI Commitment**

Clean Trend is committed to the use of safe surfactants. In accordance with the Environmental Protection Agency's Safer Detergents Stewardship Initiative (SDSI), our products are readily biodegradable, non-toxic, free of NPE's, APE's, phosphates, and have a neutral pH. Because they are plant based and petroleum free, our surfactants do not bio-accumulate or mimic human hormones.
